Those with * next to their names: You need technical work. I would suggest more focus on ballet and jazz technique. This might include some private lessons with any assistant in this genre, or simply more awareness and focus in technique classes! Please be aware that it will affect which portions of the choreography and genres you will be in! Congratulations on being a part of the team!

KORTNI: Please attend all of the Mini Core Jazz/Ballet Classes and Choreography and use this gift to focus on your technique and improving to the best of your ability!!
